

Shivalik Bank brings Internet Banking

9 January 2015

Shivalik Bank has made all arrangements for launch of its Internet banking facility. In fact, it has already started this facility for the staff as a test run, so that in case of any technical glitches, the same can be taken care of easily.

Once this testing phase is successfully completed, all of our esteemed clients would be able to enjoy internet banking (accessing their Shivalik Bank accounts from the comfort of your home through internet) in very near future.

Bank's customers should ensure the following to enjoy this facility:

1. Their mobile number must be registered with the bank.
 2. Their email id must be registered with the bank.
 3. They must possess active and valid ATM-cum-DEBIT CARD issued by Shivalik Bank.
- so that the bank may activate this facility for them.
