Army IAF conduct synergised exercise to enhance interoperability in Jammu

JAMMU : Demonstrating joint operational readiness, the Army and the Indian Air Force (IAF) conducted a synergised interoperability exercise here, a defence spokesman said on Wednesday. The exercise was aimed at strengthening coordination between ground and air forces, ensuring seamless integration of aerial and land-based operations in dynamic battlefield scenarios, the spokesman said. By refining joint operational tactics, he said, this exercise reinforced the ability of both forces to respond swiftly and effectively to real-time challenges, particularly in high-threat environments.

Under the aegis of Tiger Division, the exercise simulated real-world operational conditions, with IAF helicopters executing a precise airlift of Army troops from a designated mounting base. The troops were then inserted into terrain characterised by dense vegetation and thick undergrowth, the spokesman said, adding this complex insertion manoeuvre tested the forces' ability to operate cohesively in challenging environments, where mobility and coordination are crucial for mission.
