NIT Tiruchi conducts employability skills honing

As a part of the diamond jubilee celebration of National Institute of Technology Tiruchirappalli, the Department of Computer Science and Engineering is organising a two-week summer certification course on Android App Development from 1st July to 12th July 2024.

With the increase in usage of smart devices including smartphones, app development is gaining importance and subsequently the career prospects are significant. Skilled app developers are in high demand, with job prospects ranging from startups to tech giants. Considering the same, the course being aimed to enhance the employability skills of youths covers the core concepts that are related to app development and the various security features involved in it.

The speciality of the course is that it not only targets the currently pursuing students of Computer Science and Engineering, Information Technology and other equivalent branches, but also accommodates the graduated students under its eligibility purview. The course will be organised in offline mode with extensive hands-on sessions handled by experts from both esteemed industry and academia. Apart from the usual participation certificate, participants who score top 10% mark in the certification exam conducted at the end of the course will be awarded a merit certificate.

By participating in such a remarkable course, the participants are expected to enhance their app development skills and contribute to the digital transformation of our society, drive innovation, and shape the future of technology. The seats are limited to 60, with selection based on first come first serve and merit basis. The last date for application is 19th June 2024 and the selected candidates will be intimated via mail by 21st June 2024. Further details about the course can be referred from: <https://tinyurl.com/nitt-android>.

The course will be conducted in offline mode with extensive hands-on sessions and the top 10% scorers in the exam conducted at the end will earn a merit certificate. Over the duration of the course, the participants will learn the core concepts that are related to app development and various security features that are involved in it. Hosting such remarkable course, the seats are limited to 60 with selection based on first cum first serve

and merit basis. The last date for application is 19th June 2024 and the selected candidates will be intimated by 21st June 2024. Further details can be found at: <https://tinyurl.com/nitt-android>.

By honing their app development skills, individuals can contribute to the digital transformation of our society, drive innovation, and shape the future of technology.

Game-changing question bank to help CBSE students

As the academic session 2024-25 unfolds, we bring to you the most highly recommended question bank designed to help CBSE Class 10th and 12th students achieve top marks in their board exams. Introducing the Vidya Maxx Marks CBSE Question Bank, a resource that has been a game-changer for students in the previous academic session, leading to exceptional exam performance and securing high scores in the CBSE Board Exams.

The Vidya Maxx Marks CBSE Question Bank is hailed as the most reliable and effective study material among students who appeared for the board exams in the 2023-24 session. Many of these students reported that a significant number of questions in their exams were directly from this Question Bank, which played a pivotal role in their success, and

thus helping them score well above the average marks.

As students prepare for the 2024-25 board exams, finding the right study material is crucial. The Vidya Maxx Marks CBSE Question Bank for the 2025 board exams is here to be your key to securing maximum marks.

The Vidya Maxx Marks CBSE Question Bank for 2025 has been meticulously updated and enhanced to align with the latest CBSE guidelines. It offers comprehensive coverage of potential exam questions and includes innovative features to boost your preparation. Heres what makes it stand out:

Thoroughly Updated Content: The Question Bank has been revised to reflect the latest changes in the CBSE syllabus, ensuring that you are studying the

most relevant material.

Concept Clarity: Detailed explanations and concept maps are provided to help you understand and retain key concepts effectively.

Practice Questions: A wide array of practice questions, including previous years questions, are included to help you get accustomed to the exam pattern.

High-Quality Paper: The book is printed on high-quality paper, making it a durable and long-lasting resource.

Don't waste your summer vacation searching for the right study material. Purchase the Vidya Maxx Marks CBSE Question Bank online and get a head start on your board exam preparation. You can find it on:

Applications invited for Biotech MSc

Rajiv Gandhi Centre for Biotechnology (RGCB), an autonomous institution of the Department of Biotechnology, Government of India, has invited applications from GAT-B qualified candidates to join its MSc Biotechnology programme 2024-26.

The RGCB has also invited applications for admission to the PhD program (August 2024 session) in various domains of disease biology, neurobiology, bioinformatics, and plant science.

The M.Sc. Biotechnology course offers specialisations in two disciplines: disease biology and genetic engineering. The course will span over two years in four semesters. A total of 20 seats are available, with ten students per specialisation.

Students admitted to the course will receive a monthly stipend of Rs. 6,000 in the first year and Rs. 8,000 in the second year. Hostel accommodations are available on the RGCB campus. The final selection of the

students will be made based on the GAT-B cut-off rank or score fixed by the RGCB for each category.

The counselling process will start in the first week of July, and classes will begin on August 1, 2024.

RGCB invites applications for admission to the PhD programme (August 2024 session) in various domains of disease biology, neurobiology, bioinformatics, and plant science.

Techila donates comps to promote digital literacy

Techila Global Services, a leading boutique consulting and technology firm, is proud to announce a significant contribution to the Dnyanankur English Medium School in Alegaon Tal, Solapur. In collaboration with a dedicated NGO focused on supporting children's education and development, Techila Global Services has donated 25 desktop computers and 13 laptops to the school. This generous donation aims to enhance the students learning opportunities and provide them with essential resources to succeed in the digital age.

The donation underscores Techila Global Services commitment to corporate social responsibility (CSR) and its dedication to leveraging technology to create positive societal impacts. By providing these valuable technological resources, the company aims to bridge the digital divide and empower students with the tools they need to excel in their educational pursuits.

Chitiz Agarwal, CEO of Techila Global Services, expressed his enthusiasm about the donation: "We are thrilled to share some wonderful news with you. We had the privilege of donating 25 desktop computers and 13 laptops to the Dnyanankur English Medium School through an NGO

dedicated to supporting children's education and development. This contribution will greatly enhance their learning opportunities and provide them with valuable resources.

The integration of these computers into the schools curriculum will enable students to develop critical digital skills, access a wealth of information online, and engage in interactive and innovative learning methods. The donation is a testament to Techila Global Services vision of fostering educational growth and nurturing future generations by leveraging modern technology.

Techila Global Services is a boutique consulting and technology firm with offices in the United States and India. Specializing in crafting custom cloud-based software and mobile digital solutions for enterprises, the company prides itself

on creating remarkable value for clients and their customers by leveraging cloud and mobile technology, digital media, the internet, and the talent of its people.

With extensive experience in business consulting, Techila Global Services excels in several key areas. The company specialises in Digital Transformation Strategy, helping clients navigate the complexities of digital transformation to achieve their business goals. In terms of Implementation and Integration, Techila seamlessly integrates cutting-edge technology solutions into clients existing systems. Their expertise in Change Management ensures smooth transitions and the adoption of new technologies within organizations. Additionally, Techila provides comprehensive Training and Support to maximize the value of implemented solutions.

CEO Chitiz Agarwal, is a renowned Salesforce.com Guru, TedX Speaker, Technical Architect, Forbes Technology Council member, and TIE Charter Member, leads Techila Global Services. Under his leadership, the company continues to innovate and deliver exceptional solutions to its clients.

Techila Global Services has earned a reputation for excellence by helping diverse clients achieve outstanding results. The company's expertise spans various Salesforce solutions, including Salesforce Sales Cloud, which enables businesses to grow, find new customers, and close more deals at a faster rate with the worlds best CRM platform. Furthermore, Salesforce Service Cloud enhances customer service experiences by providing a 360-degree view of customers, allowing for faster, personalized, and more efficient service.

Woxsen conference on enhancing inclusivity of cities

Building on the success of ADoBE conference held in November 2023, the School of Architecture Planning, Woxsen University hosted the second conference ADOBE'24, last week. The conference's theme, 'CITIES: Embracing Inclusivity', provided a profound exploration of the complex nature of urban environments, highlighting how authorities influence city development while citizens navigate their own courses. The event aimed to generate actionable ideas for creating dynamic and inclusive cities for the future.

Guest of Honour Gajanand Ram, vice president, Council of Architecture commended Woxsen University for addressing such a pertinent topic. He remarked, "Woxsen University, particularly its School of Architecture, deserves praise for spotlighting this crucial issue (CITIES: Embracing Inclusivity) to practitioners, academics, and government departments. This conference offers an ideal platform to discuss the synergy between academic delivery, practical necessity, and accessible translation for broader audiences. By inviting experts from across the globe, we can compile inclusive insights for the future of urban design."

The ADoBE Series, a strategic initiative, seeks to address pressing urban development challenges through a series of conferences and workshops. Each instalment centres on a specific theme, fostering dialogue, innovation, and collaboration among key stakeholders. The sub-themes of ADoBE'24 included Design for Inclusion, Dynamic Urbanism, Equity in Built

Urban Conservation, Mobility for All, Resilient Built Form Infrastructure, and Participatory Governance Equitable Development.

The conference featured 80 research papers presented through various sessions, making it an essential gathering for urban planners, architects, engineers, policymakers, academics, community advocates, and industry professionals committed to inclusive urban development. It also engaged legal and regulatory professionals, environmental and sustainability experts, health and well-being practitioners, economic development practitioners, technology enthusiasts, cultural preservationists, and investors.

ADoBE'24 showcased distinguished keynote speakers including George Ferguson, past president of the RIBA and ex-mayor of Bristol; Matthias Ripp (PhD), world heritage coordinator, city of Regensburg; and Malini Krishnankutty (PhD), adjunct associate professor at IIT Mumbai. Guests of Honour included Gajanand Ram, vice president, Council of Architecture.

During a keynote presentation on 'The Making of an Inclusive City', George Ferguson, emphasised, "An inclusive, vibrant, and happy city can only be designed through discussion and dialogue with all citizens.

While Bristol's approach should not be directly replicated in India, valuable lessons can be adapted to local needs. India, Hyderabad, and especially Woxsen have excelled in fostering this dialogue. The theme and sub-themes of ADoBE'24 are crucial for designing cities that are colorful, playful, innovative, and locally sustainable. The youth must be inspired by Woxsen's call to shape a future urbanism that is vibrant, inclusive, and distinctly Indian."

Ripp's keynote on 'Sustainability and Resilience of Built Heritage' provided an in-depth examination of the concepts and relationships within built heritage, cultural heritage as a dynamic system, and current challenges in the

field. He emphasized integrating sustainability and resilience into heritage conservation practices, discussing practical implications, governance, and management. Dr. Ripp highlighted the impact of societal changes such as globalization, gentrification, and demolition on heritage conservation.

Malini Krishnankutty's keynote on 'Planning for Inclusivity' highlighted the impact of public participation in urban planning. She presented examples like Curitiba and Chittur Thathamangalam, Kerala, where community involvement in planning parks, public transport, and waste management empowered residents and shaped effective masterplans. Dr. Krishnankutty emphasized the importance of contextual approaches, documenting community practices, and considering marginalized stakeholders and environmental needs. She commended Woxsen University's approach, underscoring that local vetting of expert input is crucial for inclusive planning.

Equipping students to learn & earn better

IMTS Institute has established itself as one of the leading distance learning institutions in India. Under the leadership of Nitin Gupta, the institute has seen a remarkable increase in learner wages, with an average rise of 50 per cent during the pandemic. Notably, some students experienced an astounding 433 per cent salary hike.

The economic benefits for IMTS students have been substantial. With an average wage increase of 50 per cent, learners have seen their education directly translate into improved financial stability. One student, Ramesh Kumar, shared, "My salary increased by over 400 per cent after completing my course at IMTS. This institute has truly transformed my career."

IMTS Institute offers a wide range of programs designed to meet the diverse needs of its students. From undergraduate to postgraduate courses, the institute

ensures flexible learning options that cater to working professionals and students alike. The curriculum is continuously updated to reflect industry standards, ensuring that graduates are well-prepared for the job market.

Once you've chosen IMTS, the responsibility of your future and education lies on the trusted shoulders of the faculty of IMTS. You can opt for a distance learning programme at IMTS and achieve your goals from the comfort of your home.

If you are thinking about finding a job in a multinational company, IMTS Institute's distance learning will help you achieve your employment goals with its active placement cell and industry mentorship services.

IMTS brings together the worlds finest institutions, professors, and industry professionals on an integrated digital platform to provide an immersive

experience with complete flexibility to study at ones speed. In collaboration with

significant B-schools and universities approved by UGC, IMTS offers a variety of

courses in many fields such as finance and banking, business analytics, and more.
